Assigned Agencies

Agency Map

Agency	Role	Key Output
Central Orchestrator	Routes the work and keeps sequence disciplined.	operating plan, handoff checklist
Research Agency	Maps competitive landscape, athlete need, and wedge options.	opportunity map, evidence gaps
Strategy & Positioning Agency	Converts proof into positioning and messaging architecture.	positioning framework, language system
Offer & Pilot Design Agency	Shapes the first commercial test.	pilot brief, success criteria
Sales Enablement Agency	Builds objection handling and sales assets.	outreach script, proof pack
Content Studio Agency	Produces premium marketing content.	launch assets, proof-backed narratives
Launch Agency	Runs activation and engagement sequence.	launch calendar, community touchpoints
Risk & Proof Agency	Reviews claims and safeguards public messaging.	evidence ledger, approval gates
Insights Agency	Tracks feedback and improves the system.	learning loop, pivot notes

Working Rule

Central Orchestrator keeps the project moving; specialists produce, but the human remains accountable for final approval and market-facing decisions.
