FluidLogic Launch Playbook

Goal

Create a disciplined launch sequence for elite athlete outreach that is premium, evidence-led, and small-team viable.

Launch Sequence

1. Win a clear wedge and message architecture.
2. Prepare proof-backed narrative and objection handling.
3. Build a narrow outreach list with athletes, coaches, staff, and performance partners.
4. Activate conversations with a clear, low-friction offer.
5. Collect feedback and update the message quickly.
6. Only scale after response quality is visible.

Launch Guardrails

- avoid generic wellness content
- keep brand language premium and specific
- use evidence to support claims
- track response quality before scaling
