Assigned Agencies

Agency Map

Agency	Role	Output
---	---	---
Central Orchestrator	Route operational work and classify the use case.	operating map
Research Agency	Review business model and operational complexity.	process review
Offer & Pilot Design Agency	Shape realistic value experiments.	pilot concept
Sales Enablement Agency	Support parent and partner communication flows.	outreach logic
Launch Agency	Prepare rollout and adoption sequence.	adoption plan
Insights Agency	Track retention, response quality, and improvement loop.	learning plan
Risk & Proof Agency	Review operational liability, service consistency, and claim boundaries.	governance notes

Recommendation

For this business, AgencyOS would most likely add value as an operational layer rather than as a replacement for the actual sport program or franchise model.
